hi Luca,

I confirm that you can release the required thalabus code as open source

good luck with the hackathons
Patrick

Subject: Hackathon: I need your signature to release parts of the thalabus code
Importance: High

Hi Patrick,

I will participate for sure to the in-presence event (weekend) but most likely to the offline submission. For the latter, I need urgently an email from you, that agrees to release to open source some parts of thalabus (very few: rag engine, e/r extractor engine).

Pls respond asap, **submission is by 12:00 Friday** but ideally you send it to me **today**

Cheers
Luca
